■ Illuminated entry system

The lights automatically turn on/off

according to the power switch mode, the presence of the electronic key, whether the doors are

locked/unlocked, and whether the doors are opened/closed.

■ **To prevent the 12-volt battery from being discharged**

If the interior lights remain on when the power switch is turned to OFF, the lights will go off automatically after 20 minutes.

■ **Automatic illumination of the interior lights**

If any of the SRS airbags deploy (inflate) or in the event of a strong rear impact, the interior lights will turn on automatically. The interior lights will turn off automatically after approximately 20 minutes.

The interior lights can be turned off manually. However, in order to help prevent further collisions, it is recommended that they be left on until safety can be ensured. (The interior lights may not turn on automatically depending on the force of the impact and conditions of the collision.)

■ **Customization**

Setting (e.g. the time elapsed before the lights turn off) can be changed. (Customizable features: →P.651)
